

# CLEANER FL-F

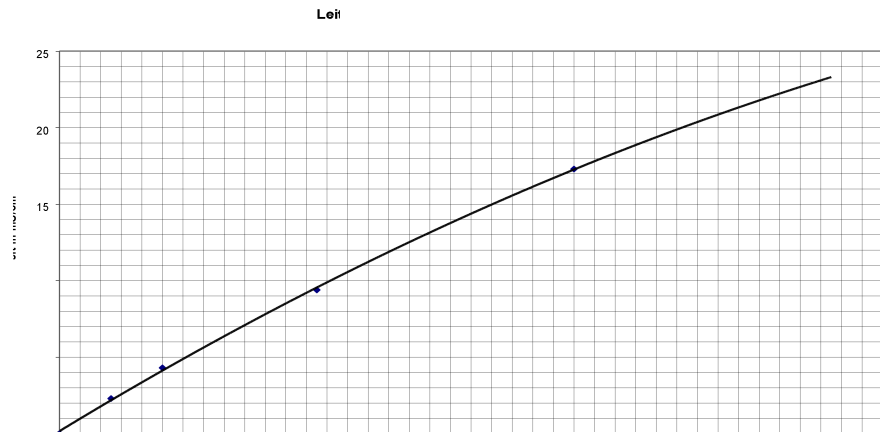

## *Neutral rust remover for ferrous metals*

**Characteristics:** Liquid, neutral product for removing rust, scale etc. by immersion or ultrasonic bath.  
**CLEANER FL-F** quickly removes corrosion products from iron alloys.  
**CLEANER FL-F** is nearly pH-neutral and therefore not aggressive against skin and iron.  
**CLEANER FL-F** contains neither EDTA nor NTA

**Application:**  
 Ferrous metals: Concentration: 5 – 10, max. 20%  
 Temperature: 20 – max. 70°C  
 time: 10 – 30 Minutes  
 All alloys and surfaces have to be tested.

**Technical data:** Specific weight: 1.18 – 1.22 kg/l  
 pH-value concentrate 8.0 – 8.6  
**Composition:** Phosphates and Phosphonates

**Concentration-monitoring:** Determination of conductivity and reading acc. following graph:

When using these products, all applicable safety regulations for the use of chemicals must be observed. For storage information, danger specifications, and safety regulations, please refer to the applicable safety data sheets. Application solutions and product remnants must be discarded in compliance with official regulations. The information given reflects our previous experience. With regard to varying operational conditions, this information is noncommittal and to be used as advice only. Therefore, we assume no liability whatsoever, including claims from third parties.
